INANO KNOWLES

SOFTWARE ENGINEER

0422772838 | inanoktech@gmail.com | https://inanoknowles.github.io/ | Brisbane

OBJECTIVE

Penultimate-year IT student seeking software engineering experience. Committed to care, courage, and integrity through customer-focused, inclusive, innovative, and community-driven solutions, with strong technical skills and a passion for continuous learning.

EXPERIENCE

Coding Instructor

Junior Engineers - *Brisbane*

02/2024 - Present

- Delivered coding workshops to students aged 5–15, covering Python, Scratch, and web development
- Adapted lessons to different learning styles, group sizes, learning platforms (in person/online) and age groups, fostering inclusivity and engagement
- Taught core programming concepts such as loops, conditionals, functions, and algorithms
- Guided students through hands-on projects to apply skills in game development and problem-solving
- Maintained classroom behaviour and participation in both face-to-face and virtual environments
- Tailored my communication based on the age and experience of the students, their teachers and their parents so that everyone understood the children's learning outcomes and achievements

EDUCATION

Bachelor of Information Technology

Queensland University of Technology - *Brisbane*

07/2023 - Expected Graduation Year 2026

Diploma of Information Technology

Queensland University of Technology - *Brisbane*

07/2023 - 07/2024

Software Engineering Bootcamp

General Assembly Australia - *Sydney*

11/2023 - 03/2024

SKILLS AND TOOLS

- Collaboration in fast-paced teams
- Problem-solving under time/resource constraints
- Stakeholder communication
- Project coordination using Google Workspace, Discord & Canva for promotional assets
- Adaptability & proactive learning
- Event planning with strong organisational skills

EXTRA CURRICULAR

Events Facilitator

QUT Women in Technology - *Brisbane*

02/2025 - Present

- Supported the Event Coordinator in planning and delivering tech-focused events for female students
- Managed event logistics, including venue booking, scheduling, and on-the-day coordination
- Liaised with vendors, guest speakers, and university departments to ensure seamless execution
- Assisted with budgeting, tracking expenses, and allocating resources efficiently
- Promoted events through social media and campus channels, contributing to increased attendance and engagement
- Collaborated with the executive team via Google Workspace, Discord, and in-person meetings to ensure smooth event delivery

Founding President

QUT The Emerging Coders Hub - *Brisbane*

10/2024 - Present

- Awarded President of the Year
- Started a tech related club to assist students in developing soft and hard skills in IT
- Grew club membership to 135 members within 3 months through organic outreach
- Managed internal collaboration using Trello, Discord, Google Workspace
- Hosted coding workshops focused on Python, JavaScript and C#
- Ensured inclusive, engaging experiences for members of varying skill levels
- Developed mentorship initiatives and a professional development program
